# What is SAT?

## Scholastic Aptitude Test

SAT - Scholastic Aptitude Test. The SAT is a standardized test widely used for college admissions in the United States. It's a MUST for LUMS, IBA and other Elite Pakistani Universities.

The SAT is a multiple-choice, pencil-and-paper test created and administered by the College Board. The purpose of the SAT is to measure a high school student's readiness for college, and provide colleges with one common data point that can be used to compare all applicants. College admissions officers will review standardized test scores alongside your high school GPA, the classes you took in high school, letters of recommendation from teachers or mentors, extracurricular activities, admissions interviews, and personal essays. How important SAT scores are in the college application process varies from school to school.

Overall, the higher you score on the SAT, the more options for attending and paying for college will be available to you.

# About The Company

We are a UK-Based Company with head office in London and regional offices in Lahore, Pakistan. We are also accredited by the CPD Group UK and have a great history of helping students with their academic preparation and we have helped countless students understand the fundamental concepts of the subject in the simplest manner possible. We've taken the skills that helped our hunters of students succeed, thought hard about them, designed a program around them, and thoroughly tested the program. Now, this program can help you succeed too.
